JURY DEMAND

C06-1002 RSL

In and for its Complaint, plaintiff Blue Nile Inc. ("Blue Nile") alleges as follows:

1. This action arises from Ice.com, Inc.'s ("ICE") and Odimo Inc.'s ("ODIMO") knowing, willful and intentional copying of protected elements of Blue Nile's website. IV. FACTS AND BACKGROUND

A. BLUE NILE AND WWW.BLUENILE.COM

- 9. Founded in 1999, Blue Nile is now the leading online retailer of certified diamonds and fine jewelry. In contrast to traditional retail diamond sales practices, Blue Nile offers on its websites abundant and detailed information to educate diamond and diamond jewelry buyers and potential buyers on the qualities and characteristics of diamonds and how to select diamonds. Moreover, Blue Nile presents the information in compilations that are easy for even novice buyers and potential buyers to navigate and understand.
- 10. Blue Nile's approach to diamond sales and its reputation for excellence has gained notice from publications such as *Forbes, Time*, and *Money*. In addition, since 2002, Blue Nile has annually been awarded the Bizrate.com "Circle of Excellence Platinum" award, which recognizes the best online customer service as ranked by actual consumers. Blue Nile is the only jeweler to have ever received this award.
- 11. Blue Nile provides its diamond retail services solely through its Internet websites, www.bluenile.com (serving the United States), www.bluenile.com (serving Europe).
- 12. Blue Nile's websites are available globally, and it sells diamonds and diamond jewelry via its websites in interstate commerce throughout the United States, and elsewhere.
- 13. Blue Nile's websites exemplify its unique and distinctive method of retailing diamonds and diamond jewelry. Because its business is based exclusively on Internet-based sales, Blue Nile spends significant time, effort and resources to create a distinct, novel and valuable website to attract and retain customers and potential customers. In particular, because diamonds are generally expensive commodities and customers may feel some trepidation

Perkins Coie LLP 1201 Third Avenue, Suite 4800 Seattle. Washington 98101-3099 Phone: (206) 359-8000

regarding purchasing diamonds and diamond jewelry over the Internet, Blue Nile strove to and did create websites and webpages that distinctly identify and are associated with Blue Nile and its reputable, reliable and award-winning diamond retail business.

- 14. One of the most distinctive creative elements of Blue Nile's websites is the "diamond search" webpage ("Blue Nile Diamond Search" webpage). Blue Nile created a webpage that easily, comprehensively and distinctly compiles and displays to customers and potential customers the key factors in diamond selection (e.g., price, cut, color, clarity, carat). Blue Nile's unique compilation and expression of diamond selection criteria includes its creation of vertical visual scales for each criterion with "sliders" that are a visual expression of parameters that diamond-buying customers may consider in evaluating potential diamond purchases. Blue Nile's diamond search page also includes unique display boxes that show further details of diamonds (e.g., depth, symmetry, culet, fluorescence, measurements) identified by Blue Nile's diamond search program pursuant to parameters set by the customer. Blue Nile publicly launched this unique and distinctive expression of its diamond search program in a beta release on February 23, 2006, and in full release on March 23, 2006.
- 15. Blue Nile owns all right, title and interest in the creative compilations and other expressive elements of its website, including copyrights. Its websites, including diamond search pages, display copyright notices. Blue Nile has obtained numerous copyright registrations relating to its website, including related to the newly launched diamond search webpage compilation and expression of its diamond search program. These registrations include:

Reg. No.	Reg. Date	Title
TX 6-349-238	June 21, 2006	Blue Nile Diamond Search (Public Beta Version) – Sliders Section
TX 6-349-239	June 21, 2006	Blue Nile Diamond Search with Vertical Sliders (Public Beta Version)

True and correct copies of these registration certificates are attached as Exhibit A, pp. 14-15.

16. Since the company's launch in 1999, Blue Nile has been distinguished by its websites, particularly its unique compilations and expressions of diamonds' many qualities and characteristics in manners that are easily accessed, negotiated and understood by diamond buyers or potential buyers of all levels of sophistication. Blue Nile's marketing has enhanced the trade identity significance of its websites' distinctive expressions and visual depictions. Blue Nile's compilations of simple, accurate and reliable visual and textual expressions of diamond identification, evaluation and selection criteria identify Blue Nile as a trusted, reliable and reputable online diamond seller, and have generated substantial and valuable goodwill to the company.

B. ODIMO HAS COPIED BLUE NILE'S WEBSITES BEFORE

- 17. This case is not the first instance of ODIMO's efforts to associate Blue Nile's exceptional reputation and goodwill with ODIMO's less renowned www.diamond.com website by copying protected elements of the Blue Nile websites.
- 18. Prior to launch in 2006 of Blue Nile's current unique and distinctive expression of its diamond search program, ODIMO directly copied the visual expression of Blue Nile's diamond search features, including displaying photographs of diamonds taken from the Blue Nile webpages.
- 19. As a consequence, on or about September 30, 2005, Blue Nile filed a complaint for copyright infringement against ODIMO in the U.S. District Court for the Western District of Washington, styled *Blue Nile Inc. v. Odimo Inc.*, No. 05-CV-1653 JLR. Specifically, Blue Nile alleged that ODIMO's www.diamond.com website illicitly copied Blue Nile's creative visual

Perkins Cole rate 1201 Third Avenue, Suite 4800 Scattle, Washington 98101-3099 Phone: (206) 359-8000

expression of diamond selection factors and parameters on Blue Nile's diamond search webpage, and Blue Nile's unique diamond photographs.

- 20. Blue Nile and ODIMO eventually reached a settlement that was memorialized in an agreement effective April 25, 2006 (the "Settlement Agreement"). A copy of the Settlement Agreement will be filed with the Court as Exhibit B to this complaint upon entry of an appropriate protective order or upon stipulation of the Defendants.
- 21. The Settlement Agreement was based in large measure on and reflects ODIMO's express and implicit representations that it would not copy Blue Nile's distinctive visual expression of diamond selection criteria on the Blue Nile diamond search webpages. Indeed, the parties agreed on a manner of expression of diamond selection factors that would not violate Blue Nile's asserted rights. See Exhibit B (¶ 4, Ex. A) once filed with the Court.

C. ODIMO AND ICE, AS SUCCESSOR, COPIED BLUE NILE'S WEBSITES AGAIN

- 22. Upon information and belief, on or about May 11, 2006, only sixteen days after ODIMO signed the Settlement Agreement, ODIMO completed sale of the Diamond.com business to ICE, including the www.diamond.com Internet domain.
- 23. Upon information and belief, in connection with the sale, ODIMO and ICE also entered into a Transition Services Agreement which provides that, for a period of up to 60 days, ODIMO shall provide services to ICE relating to operation and maintenance of the www.diamond.com website, including technology support and fulfillment services. (If the Transition Services Agreement was also signed on May 11, 2006, it would not expire until on or about July 11, 2006.)
- 24. By June 2006, the <u>www.diamond.com</u> website mimicked Blue Nile's website again. For example, the www.diamond.com diamond search page suddenly expressed diamond selection criteria in a compilation, including a vertical visual scale *with* "sliders" and display boxes that show further details of diamonds (*e.g.*, depth, symmetry, culet, fluorescence, measurements) identified by a customer's search program, nearly identical to Blue Nile's

Perkins Coie LLP 1201 Third Avenue, Suite 4800 Seattle, Washington 98101-3099 Phone: (206) 359-8000

websites. Upon information and belief, these changes to the www.diamond.com website were made jointly or collaboratively by Defendants during the period of transition of the www.diamond.com website operation and maintenance from ODIMO to ICE, and both ICE and ODIMO had the right and ability to control these changes to the www.diamond.com website.

- 25. Upon information and belief, at all times relevant, ICE was fully aware of Blue Nile's first lawsuit against ODIMO for infringement of distinctive, original elements of Blue Nile's websites, and was fully aware of, if not clandestinely involved in, negotiations between ODIMO and Blue Nile to resolve these claims and all terms of the Settlement Agreement. Upon information and belief, ICE is successor to ODIMO with respect to all aspects the Diamond.com business, and is bound by the Settlement Agreement. The www.diamond.com website's recurrent imitation of protected elements of Blue Nile's websites, including the compilations of Blue Nile's diamond search webpages, violates the letter, spirit, and intent the Settlement Agreement, as well as the Defendants' obligation of good faith and fair dealing.
- 26. In copying the most distinctive elements of Blue Nile's visual customer experience, the Defendants have willfully and deliberately sought to profit from Blue Nile's preestablished goodwill and reputation.
- 27. The Defendants' acts in violation of Blue Nile's rights have been willful and deliberate.
- As a direct and proximate result of the Defendants' acts, Blue Nile has suffered and continues to suffer damage in an amount to be proven at trial. The injuries suffered by Blue Nile cannot adequately be remedied at law, and Blue Nile is also entitled to the injunctive relief prayed for below.
